Ways Of Being In The World PHIL225
Service Learning Assignment - "Notes on Trip" & "Reflection on Activity"
DUE: May 6th, 2026 (Day of Presentation)

Assignment: This assignment relates to the activity you participated in to fulfill the service learning component of the course, and your thoughts on your experience both during and after. I will hand back your pre-reflection essay to you on Monday, April 27th, so that you have it while you do this assignment.

Instructions: Please compose two separate documents, as follows:

1. Notes on Activity. **Describe what you did** during the activity, i.e., the trip to Haskell or signing up to volunteer at the Indian Museum. **Record/Recall thoughts you had during it.** If the activity made you think about things that you learned or that we discussed in this course, discuss that in these Notes, too. .

2. Reflection on Activity: Write a Essay or Slide Show **reflecting on the impact of the overall experience**, from first learning about and choosing the activity, until now, as we proceeded through Modules Two, Three, and Four of the course.

3. You may type the "**Notes on Activity**" and "**Reflection on Activity**" if you prefer.

4. Please attach this cover sheet to your two documents when you hand them in. It helps me organize student work.

Thank You and I look forward to hearing your presentations!
